ALLEN & GLEDHILL

A&GEL INSIDER: ISSUE 5

Quicker Agents in **Playbook** • Pin-Cite **Referencing** • Numerous **Updates**

A&GEL DEVELOPMENT TEAM

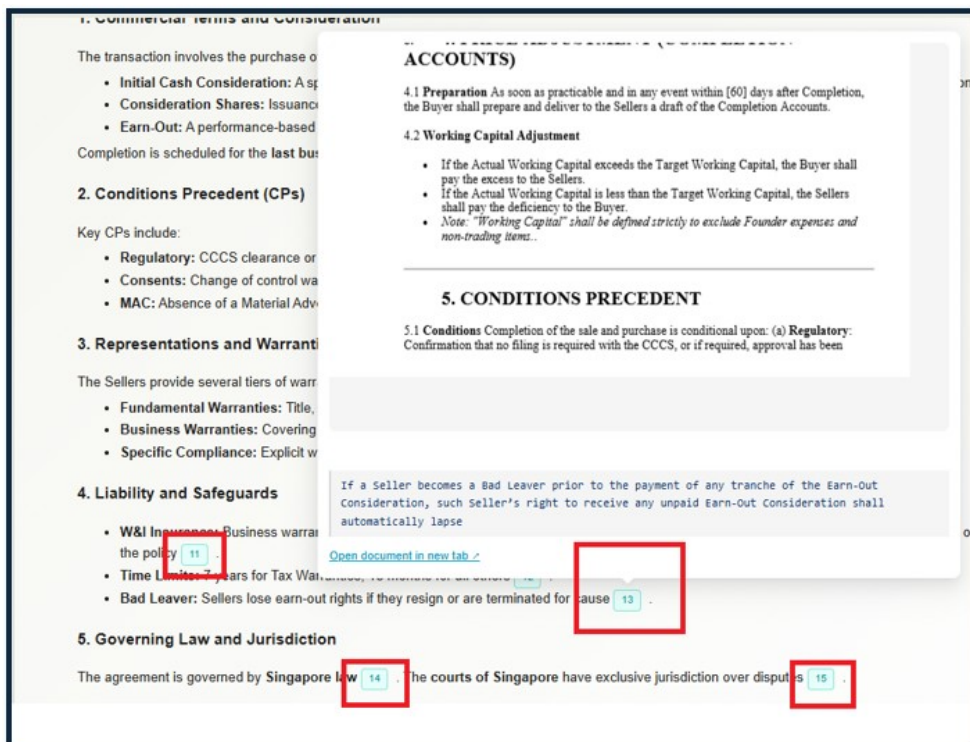

Dear Colleagues

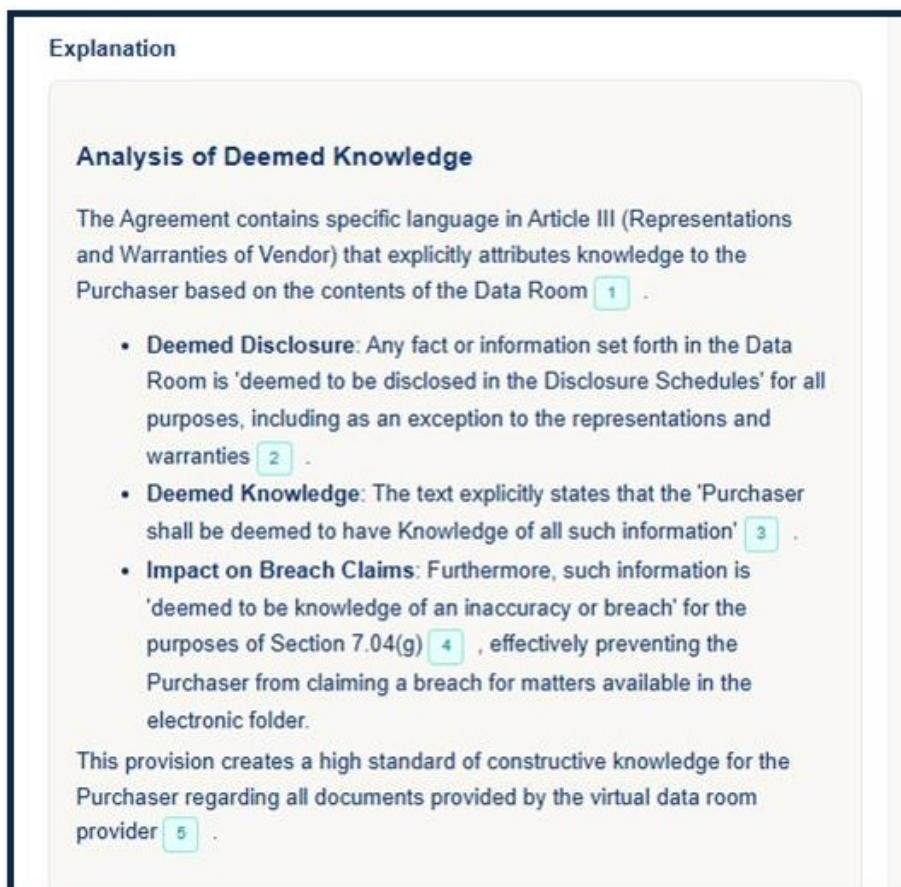

A&GEL Insider Issue. 5 – Quick Updates on the latest A&GEL Patch

We are pleased to share some recent updates to A&GEL:

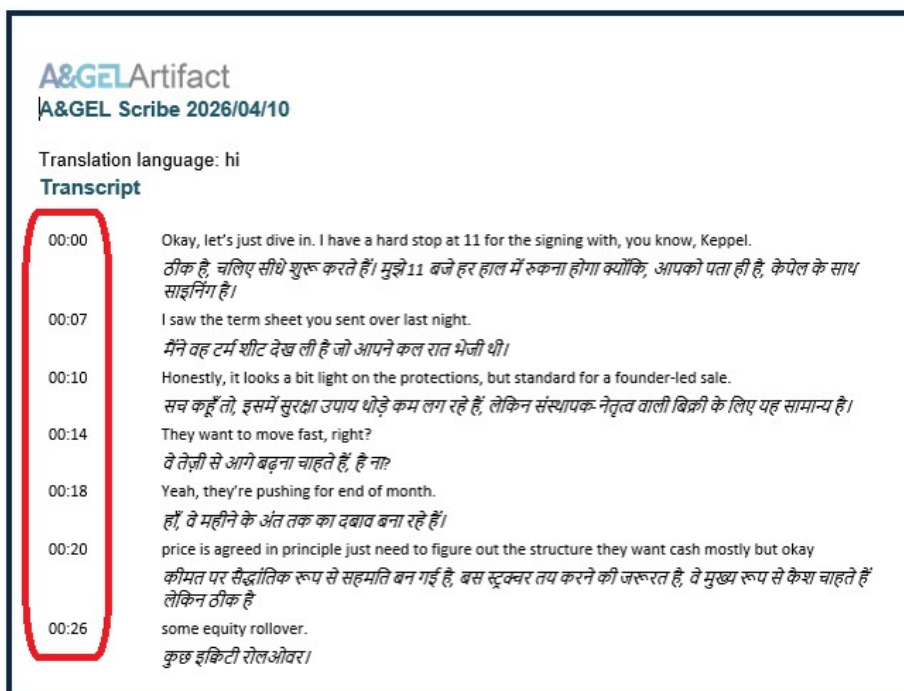

- **Inline Referencing Across Apps.** Deep Research, Timeline, and Scope Summary now feature clickable inline citations. These references facilitate **instantaneous cross-checking of outputs against source documents**. This functionality eliminates external navigation, allowing you to verify specific points across multiple documents directly on a single page for maximum efficiency.

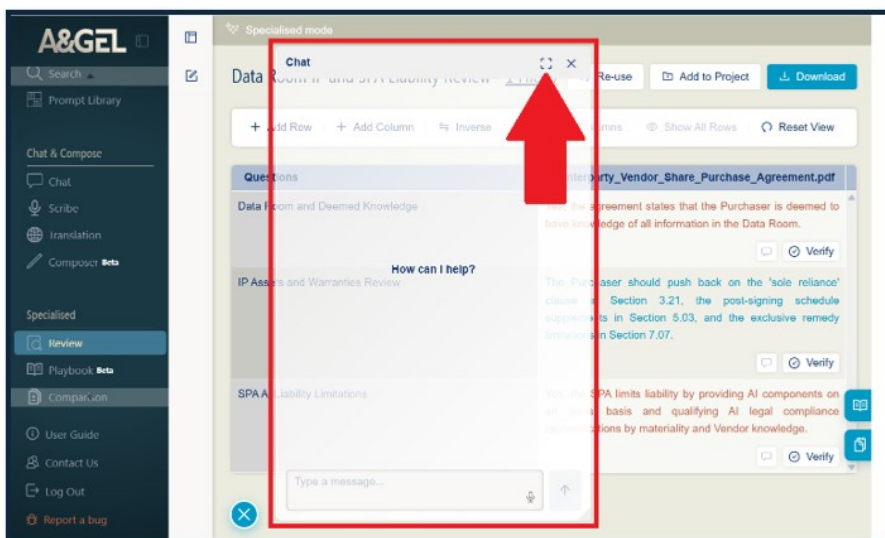

- Inline Referencing & Cleaner “Explanations” in Review.** The Review page now features structured inline referencing within the expanded **“Explanation”** section. Clicking any cell reveals precise citations linked to source documents. This update includes a cleaner, more organised structure for the **“Explanation”** section, facilitating ease of reading and **rapid verification of AI-generated points against the ground truth without leaving the page.**

- **Downloadable Scribe Transcripts, Now With Timestamps.** Scribe transcripts **now include timestamps within the downloaded Word document.** These markers allow for simpler navigation and reference to specific moments within the recorded conversation or meeting.

- **Moveable Mini-Chat Interface.** The Review, Comparison & Side by Side features were recently updated to have a mini-chat window that allows you to "talk" with documents and A&GEL outputs simultaneously. To make it **easier to navigate A&GEL outputs** without mini-chat obstructing your primary workspace, **mini-chat is now moveable and resizable.**

- **Several Other Updates:**

- **Easier Termination of A&GEL Sessions.** Ongoing sessions can now be terminated by deleting them from the History tab, in addition to the existing method of pressing the "Stop" button. This provides greater control to halt processing if you need to amend a prompt and rerun the session, or if a sessions is experiencing bugs/issues.
- **Enhanced Search.** Now with inline referencing, better keyword matching, and in-document search.

- **Faster Guided Summary with Interim Updates.** Guided Summary now provides interim updates with inline-referencing during generation. This update also increases output speed for Guided Summary. *Note, if your Guided Summary is 'simple', it might load fast enough to skip over these interim updates.*
- **Optimized Files UI Layout.** The Files page UI has been improved with better pagination, where you should be able to see more files and folders at a glance, filling up your screen dynamically.
- **General Stability and Bugfixes.** This update incorporates various minor bugfixes and backend optimisations to enhance overall platform stability.

FAQs & Example Use Cases

For those of you just starting to explore A&GEL, to help you get started, our Technology and Corporate IP lawyers, who led the development of A&GEL, have put together the following resources:

- a set of [FAQs](#);
- a [Demo of Use Cases for A&GEL's features](#); and
- a [Video Walkthrough](#).

As always, if you encounter any issues, please Teams message or e-mail our A&GEL Developer, Marcus, (marcus.chin@agasia.law) or the A&GEL Support e-mail (angel.support@agasia.law); it'll be sufficient if you can provide the following 3 details:

1. **Timestamp (e.g. "a chat I started at 4:31PM today")**
2. **Feature in issue (e.g. "tried uploading a file in Analysis – Deep Research, it did not load")**
3. **Brief Description or screenshots**

Cheers,

A&GEL Development Team
